OUR VISION

We invest where we can achieve the biggest development impact. This means our decision-making process encourages investment in the countries with the most challenging investment climates.

We prioritize sectors where growth leads to jobs – our decision-making process ranks sectors based on their likelihood of creating viable employment opportunities in the communities where we invest. Our teams include product and sector specialists who look for businesses with the greatest potential for impact, whether through their ability to grow and create jobs, to address a lack of enabling infrastructure, to increase efficiency, or to increase opportunities for the poorer parts of society.

OUR MISSION

Our investment teams include product and sector specialists who look for businesses with the greatest potential for impact, whether through their ability to grow and create jobs, to address a lack of enabling infrastructure, to increase efficiency, or to increase opportunities for the poorer parts of society.

OUR BUSINESS OBJECTIVES

We provide funding or a direct link to contact sources that have strategic relationships with domestic and international banks, investment banks, lenders, unions, insurance companies, hedge funds, pension funds, syndicates, private accredited investors, and private lenders.

We serve as an advisory leader to our clientele and partner with community and corporate institutions. Our expertise includes strategic, creative thinking to “architect the deal” so the capital stack and ROI makes sense for the Principals involved. On a case-by-case basis, we can help secure funding through our own capital resources or through existing third party relationships, for all types of real estate, energy, telecommunications, and business projects, including acquisitions, construction, developments, expansion and joint venture development projects.
